Shaikat Sharma

Instructor at EDGE-CSE-CUET

Chattogram, Chattogram, Bangladesh

Summary

As a passionate and dedicated web developer, I specialize in creating clean, efficient, and responsive websites and web applications that provide a seamless user experience. With a solid foundation in front-end and back-end technologies, I bring both creativity and analytical skills to every project, transforming complex ideas into functional, visually appealing, and user-friendly solutions.

Core Skills:

Front-End Development: HTML, CSS, JavaScript, React, and Vue
Back-End Development: Node.js, Python/Django, PHP, and REST APIs
Database Management: MySQL, MongoDB, PostgreSQL
Additional Tools: Git, Docker, and Agile/Scrum methodology
What I Bring to the Table:

A user-centric approach to web development, focusing on accessibility, speed, and usability.
Effective problem-solving abilities honed through hands-on experience and constant learning.
Collaborative and communicative skills that help streamline project requirements and expectations with clients and teams.
My Goal: To leverage my technical skills and passion for technology in creating impactful web experiences that drive business growth and satisfy user needs.

I am always open to new opportunities, collaborations, and conversations with fellow tech enthusiasts. Let's connect and explore how we can bring innovative ideas to life!

Experience
